

Service Call Scope of Services

Scope of work	Troubleshooting and provision of technical assistance for your system(s)
Personnel	One Field Service Technician to be provided by AHS
Parts	Occasionally if problems have been pre-determined, we will bring the parts with us to complete the service call. It is always recommended to have our standard spare parts kit available
Cost	A service call fee for the expenses associated with the time and travel to diagnose, inspect, and provide technical recommendations will be charged

To submit a request for field services or parts, please visit our [contact support page](#), or you can scan the QR code below.
